EXPERIENCE

Application System Engineer

Fujitsu Philippines Global Delivery Center

March 2022 - November 2025, Taguig City

- Designed and implemented system and application solutions for multiple client projects, supporting 50,000+ users and collaborating with a 5-person engineering team.
- Led modernization and migration initiatives for legacy systems, improving system performance and maintainability.
- Created test specifications, executed automated (TDASH) and manual testing, and resolved defects, reducing system downtime by 20% over six months.
- Provided application maintenance and support, achieving 99% system uptime for assigned projects.
- Developed and maintained technical documentation, including code specifications, system requirements, and project plans, improving team onboarding efficiency by 30%.
- Coordinated with team leaders and senior engineers to troubleshoot issues and implement solutions, increasing overall system reliability.

Associate Software Engineer

NTT Digital Business Solutions Inc.

October 2021 - February 2022, Taguig City

- Strengthened Java programming skills through structured LinkedIn Learning courses, focusing on object-oriented programming.
- Applied analytical and problem-solving skills to improve software development practices.

PROJECT

Food and Beverage Web Application

Fujitsu/Weserv (Japan) • December 2024 - August 2025

- Executed automated (TDASH) and manual testing for a web app used by 5,000+ restaurant staff, ensuring feature accuracy and functionality.
- Performed data validation and verification on 50,000+ database records using SQL, supporting reliable reporting.
- Reported defects in Asana, collaborating with developers to reduce bug resolution time by 25%.
- Maintained QA performance of 98% PPR (Q1) and 100% PPR (Q2), recognized as a top performer.

Financial Services / Leasing Web Application

Fujitsu / Weserv (Japan) • July 2023 - April 2024

- Migrated a 200+ module Java application to Angular using the Intarfrm framework, improving front-end performance by 30%.
- Developed comprehensive Program Test Specifications (PTS) to validate functional and non-functional requirements during testing.
- Conducted code reviews and debugging exercises, reducing post-release defects by 15%.
- Collaborated with cross-functional teams to resolve performance bottlenecks, improving application responsiveness.

Banking / Financial Services Web Application

Fujitsu / Weserv (Japan) • October 2023 - March 2023

- Designed system architecture and documented business logic and workflows using Microsoft Excel for class and sequence diagrams, improving team understanding of complex processes.
- Standardized documentation templates across multiple modules, reducing onboarding time for new team members by 30%.
- Participated in daily stand-ups to report progress, remove blockers, and align with project goals.

Banking / Financial Services Web Application

Fujitsu/Weserv (Japan) • June 2022 - September 2022

- Implemented unit testing protocols using JUnit for Java applications, improving code reliability and reducing production defects by 20%.
- Collaborated with cross-functional teams to establish robust unit testing strategies, accelerating release cycles.
- Participated in daily stand-ups to provide development updates and ensure alignment with project objectives.

EDUCATION

Bachelor of Science in Information Technology

San Sebastian College Recoletos Manila • Manila • 2020

- Athlete Scholar; NCAA Varsity Chess representative.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Oracle • 2025

Oracle Data Platform 2025 Certified Foundations Associate

Oracle • 2025

COURSEWORK

BootCamp Training

Fujitsu Philippines Global Delivery Center • 2022 • Java, Spring boot, Technical Documentation

- Coding Exercise and System presentation.

SKILLS

Languages: Java, SQL, HTML, CSS, JavaScript

Frameworks: Spring Boot, Bootstrap, Spring MVC,

Testing & QA Skills: Manual Testing, Automation Testing, API Testing, Junit, Regression Testing, Defect Tracking, Test Case Management, Data Validation

Tools: MySQL, PostgreSQL, Asana, T-Dash, VScode, Office Tools

Soft Skills: Agile, SDLC, Communication, Collaboration, Time Management, Attention to Detail, Adaptability
